**Proposed Modification of Class E Airspace; Twin Falls, ID**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to modify Class E airspace at Twin Falls Joslin Field-Magic Valley Regional Airport, Twin Falls, ID. Controlled airspace is necessary to accommodate aircraft using the Area Navigation (RNAV) Global Positioning System (GPS) and the Instrument Landing System (ILS) or Localizer (LOC) standard instrument approach procedures at the airport. The geographic coordinates of the airport and navigation aid also would be adjusted in the respective Class E airspace areas, and the airport name corrected to Twin Falls Joslin Field-Magic Valley Regional Airport. The FAA is proposing this action to enhance the safety and management of aircraft operations at the airport.

## **The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E airspace extending upward from 700 feet above the surface and 1,200 feet above the surface at Twin Falls Joslin Field-Magic Valley Regional Airport, Twin Falls, ID, to accommodate aircraft using the RNAV (GPS) and the ILS or LOC standard instrument approach procedures at the airport. Also, the geographic coordinates of the airport Twin Falls VHF Omni-Directional Radio Range Tactical Air Navigational Aid (VORTAC) would be updated to coincide with the FAA's aeronautical database for the respective Class E airspace areas. This action would enhance the safety and management of aircraft operations at the airport. The airport formerly called Twin Falls-Sun Valley Regional Airport, Joslin Field or Joslin Field-Magic Valley Regional is renamed Twin Falls Joslin Field-Magic Valley Regional Airport.

Class D and Class E airspace designations are published in paragraphs 5000, 6002, 6004 and 6005, respectively, of FAA Order 7400.9W, dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR Part 71.1. The Class D and Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since

this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify controlled airspace at Twin Falls Joslin Field-Magic Valley Regional Airport, Twin Falls, ID.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
